

## Course Guide 2025-2026

Nature is the perfect classroom. As children spend time outdoors, they grow in understanding and connection to the earth, developing a sense of pride and protection for it.

# Wild Foods and Medicines

2025-2026 SCHOOL YEAR THEME

Join us as we get to know our plant neighbors by exploring the fields and forests. Throughout the year, we'll work with a variety of plants, learning to cook wild foods and create our own herbal remedies.

# Sprouts Parent/Child

AGES 2-5, BABY SIBLINGS WELCOME

Mon, Wed, or Thu, 10:00am-12:00pm

[Sprouts Details Here](#)→

Classes encourage students to connect within themselves and to the earth, their peers and their parent or caregiver. Each class includes free play, sensory awareness, music, beautiful literature, adventure hikes and nature journaling.

# Juneberry Class \*AGES 4-5

Mon, Wed, or Thu, 10:00am-2:00pm

[Juneberry Class Details Here→](#)

Emphasizing imaginative free play, curiosity, and social awareness, we enjoy student-led learning in our beautiful outdoor classroom space. Quality literature and art is presented through beautiful, living books, and we love to sing and dance to open and close our days together!

**\*AGE NOTE\*** Juneberry (4-5) and Redbud (5-6) courses are combined during enrollment, and then split the class based on student age. You will learn your course placement prior to Family Welcome Night.

[www.discoverywilderness.com](http://www.discoverywilderness.com)

# Redbud Class \*AGES 5-6

Monday, Wednesday, or Thursday, 10:00am-2:00pm

[Redbud Class Details Here](#)→

Imaginations blossom through forest play, and nature connection games expand our senses. Hikes, obstacle course, and fort-building develop gross motor skills. Students create useful objects from natural materials, and work together to solve real-world problems.

**\*AGE NOTE\*** Juneberry (4-5) and Redbud (5-6) courses are combined during enrollment, and then split the class based on student age. You will learn your course placement prior to Family Welcome Night.

# Willow Class AGES 7-8

Mon, Wed, or Thu, 10:00am-2:00pm

[Willow Class Details Here](#)→

Students spend their days in the forest- exploring and creating. Each week includes a themed nature study. As students hike uneven terrain, climb, and balance on stones, they develop gross motor skills. Sharing discoveries and learning from one another develops our sense of community.

# Maple Class AGES 9-10

Mon, Wed, or Thu, 10:00am-2:00pm

[Maple Class Details Here→](#)

Students will learn to observe the natural world with all of their senses, developing a deep connection to the earth and their peers in our outdoor classroom.

We adventure along the trails, into the swamp, or along the lake. Come adventure with us!

# Cedar Class AGES 11-13

Mon, Wed, or Thu, 10:00am-2:00pm

[Cedar Class Details Here](#)→

Welcome to the wild! Students will use scientific tools to investigate, learning through the process of discovery. With a focus on learning from one another, students develop their social skills and sense of belonging to a community of fellow nature enthusiasts.

# Oaks Field Study

2025-2026 - BOTANY HIGH SCHOOL CREDIT

Wed or Thu, 10:00am-2:00pm

[Field Study Details Here→](#)

Wilderness Field Study combines modern scientific understanding with ancestral ways of connecting with the natural world. Learning is best supported through hands-on experiences as students are immersed in nature- where our classroom is the woods, lake, swamp and field. As they connect with the earth, students develop a sense of pride and protection for it.

# Nature Mentorship AGES 13-18

- Mon, Wed, or Thur, 9:30am-2:15pm
- + Adventure Fridays once/month
- + Summer Mentor Training Week

[Mentorship Details Here→](#)

Our leadership curriculum focuses on developing centered, healthy, and motivated young adults who are the best role models for our community of nature-enthusiasts! We strive to create a community of teens who feel safe exploring their unique gifts and passions with confidence.

# Ladies ReWilding ADULTS 18+

Second Saturday Morning of Each Month, 2 hours  
Beginning at 7am or 8 am, depending on sunrise time  
September 2024-August 2025

When was the last time you explored off-trail or got lost in a sunset? Who are YOU as a woman and how are you connected to the earth? We were created to live in relationship with the natural world and in community with one another.

*Let's connect with our inner-wild.*
